WILL BE ELECTED

Senator Harrison Declares It
Is Necessary to Choose
Such as Governor.

CRYSTAL SPRINGS, Miss., Aug. 5. (Sp.)—Senator Pat Harrison came here today direct from Washington on his way to Gulfport to vote in the election Tuesday. He stopped over at the old home town to spend a few hours with his mother and relatives here. When asked touching the league of nations he said:

"The Republicans are playing politics and since they control the senate, if they were able to unite they could defeat the treaty by reservations or interpretations, but fortunately for the peace and security of the world they cannot agree on reservations. I believe eventually the treaty will be passed without reservations, but it will not be until some time in the fall. The Republicans may, in order to save their political faces and secure interpretations touching our national sovereignty, Monroe doctrine or domestic affairs. All of which are already clearly and fully covered by the treaty. They may do that merely to deceive the unsuspecting public next year, claiming that they performed wonders, when as a matter of fact they

Grand Jury May
Take Up Price
Boost For Ice

W. T. McLain, assistant and acting attorney in the absence of Samuel O. Bailey, said Tuesday that his office was making an investigation of the alleged ice combine.

"We are looking into the matter at present as we want to know our grounds before taking any action," Mr. McLain said.

Recently every ice company in the city of Memphis raised the price of ice. They deny there is any combination among them or that there was any agreement to raise the price of ice. However, the price of ice was raised by all of them within two days. The ice companies claim they followed the lead of the Consumers company when that corporation raised the price of ice five cents on the 100 pounds.

MAN'S ENTRAILS
EATEN BY WOLVES

The well-known story of the poor Spartan boy who held in his arms a wild wolf, even while it was gnawing savagely at his intestines, pictures to the imagination but feebly the excruciating agony that men and women suffer as the result of acid stomach. This terrible condition of body is insidious. It starts with a little dyspepsia, that does not seem at all important, nothing more noticeable than a little belching after eating and the discomfort caused by the pressing of gas upon the heart. But these apparently harmless little symptoms, if neglected, result in habitual biliousness. Due to constipation and chronic indigestion. The patient allows his home accumulations of indigestible food to clog up the system. Then follows bad breath, offensive complexion covered with pimples, eruptions, blotches and roughness. The next stage in this dangerous condition known as acid stomach brings with it unspeakable mental depression, despondency, moodiness, crying spells, brooding over "wrong" and then follows, in rapid succession, stage after stage of this terrible malady until the agony of intestinal pain becomes so great that it is like wild wolves gnawing at the entrails.

Countless thousands of people could be saved from the terrible results of acid stomach by taking Pepsinol at the very first symptom of indigestion. Pepsinol is a digestive tonic and laxative combined, and is also a marvelous reconstructive, alterative and strength-builder. What a blessing Pepsinol has been to the victims of acid stomach. By its gentle, yet powerful action, it has saved them untold suffering by overcoming all forms of indigestion, dyspepsia and constipation.

When you think of "pep" think of Pepsinol.

Genuine Pepsinol is made only by The Peppermint Co., Memphis, Tenn., and is in strict accordance with the Medical Standards of the United States Pharmacopoeia. To be convenient for everybody and yet to prevent substitutes being sold for Pepsinol, we have appointed a special "Pepsinol Agent" in each section.
